

Protect what matters most.

Will you be flooded with problems when your pipes leak?

One broken pipe can deliver a flood in excess of 5,000 gallons in 8 hours.

You can rest assured knowing PipeBurst Pro is working behind the scenes. Place a wireless water sensor under the sink, for example.

It's easy to believe we won't experience leaky pipes or major plumbing failures, but it's more common than you think. Thousands of homes are damaged annually, belongings are ruined and valuable time is lost. Many thousands of dollars are spent on recovery. PipeBurst Pro offers the industry's best residential protection. It automatically detects leaks and shuts off water sources.

Choose PipeBurst Pro™ for peace-of-mind protection from costly water damage.

Lower Insurance Premiums

Many insurance companies offer homeowner policy discounts when you install PipeBurst Pro. See your insurance company for more details on discounts offered for installing an automatic water protection system.

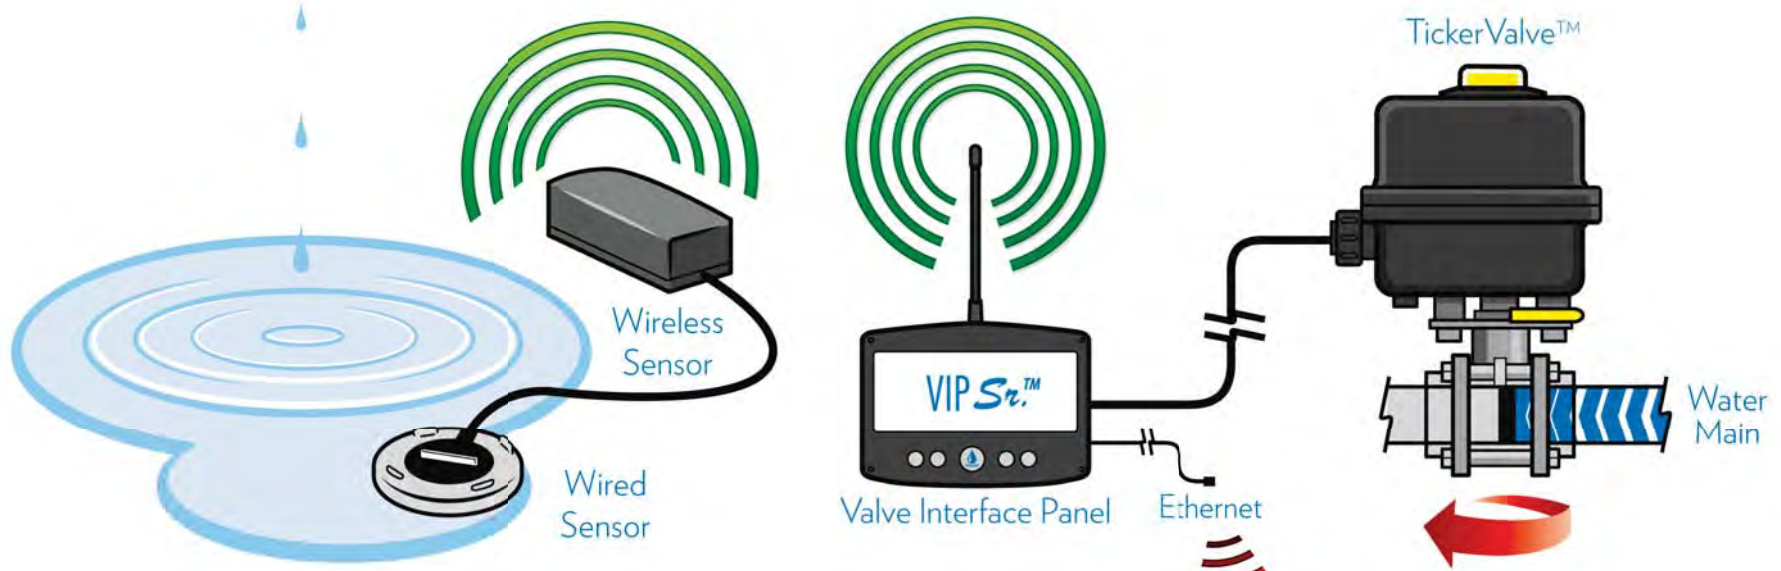

"While on vacation, a leak caused \$200,000 in damage and forced us out of our home for six months. We installed PipeBurst Pro Jr. and it found a leak right away. Thank you for your great product!"

- Julie

PipeBurst Pro at Work

If a leak occurs, the sensor detects the water and sends a signal to immediately shut off the water. It's that simple.

ionleaks.com Integration

Your PipeBurst Pro VIP Sr. communicates with ionleaks.com which allows you to control your PipeBurst Pro on any kind of device with an internet connection and receive remote notifications.

Insurance Claim Facts

The insurance industry estimates policyholders make annual claims related to water damage totaling:

\$500,000,000+ for buildings

\$150,000,000+ for washing machine hoses

\$50,000,000+ for leaky hot water tanks

Water damage is the second most common household insurance claim, according to the Insurance Information Institute.

Avoid the Stress of a Watery Mess!

"Installs easily and operates great. I had over \$30,000 of water damage, and I do not want to go through that again! Great product!"

- Michael

- Expandable to multi-valve system
- Manual handle override
- Valve sizes: 1", 1 1/2", 2"

Complete Home Protection

Today's homes contain more water source points than ever before – leaving your residence vulnerable to potentially disastrous leaks. PipeBurst Pro can tailor a detection and shut-off system for your home to provide maximum protection. Place a sensor at the lowest point in your home, on each floor, or at every water source. Integrate into an existing security system for alerts while you're away. PipeBurst Pro offers different levels of installation to protect what matters most.
