

PRO SERIES CABINET

Features:

High Capacity Resin:
1 Cu/ft 8% DVB

Bypass Valve included:
 $\frac{3}{4}$ " or 1" connections

Its top sliding cover opens for ease of adding salt to the system w/o removing the cover

Compact system dimensions:
44 $\frac{5}{8}$ " H x 13 $\frac{13}{16}$ " W x 20 $\frac{5}{8}$ " D

Solid state microprocessor: easy access front panel settings

Three modes of operation: meter immediate, meter delayed, or time clock delayed

Double backwash feature: optimum regeneration, cleaning ability, and efficiency regeneration cycles

Stores system configuration and operation data in non volatile memory

12 volt transformer provides safe and easy installation

Treated water regenerate refill with variable reserve

Its top sliding cover opens to a large tapered chute for ease of adding salt to the system without removing the cover. This new design offers a unique flip up access window that allows you to do valve programming without removing the cover.

A new brine valve/brine well system has been incorporated in the design that allows full access to the brine valve system for servicing without having to disassemble the complete system.
